🔗 Portfolio 🔄 Charan Peddi

Professional Summary

Full Stack Developer with 1+ year of production experience building and scaling high-performance web applications across healthcare, education, and IT domains. Proven expertise in designing and delivering complete end-to-end solutions independently, including CRM systems, CMS platforms, AI-powered chatbots, SEO optimization, and scalable web architectures.

Successfully contributed to business growth through technology-driven solutions, generating ₹1.2L/month additional revenue and automating key operational workflows. Specialized in React.js, Next.js, MERN Stack, performance optimization, Core Web Vitals, and modern frontend architecture.

Professional Experience

Full Stack Developer, <i>Sunders Cosmo Radiance Hospitals Pvt. Ltd.</i>	06/2025 – Present Hyderabad, India
• Led end-to-end development of a scalable healthcare platform using React.js, Next.js, Node.js, Express.js, MongoDB, and Tailwind CSS. • Increased online service revenue by ₹1.2L/month through conversion-focused UI/UX improvements and optimized patient journeys. • Reduced patient appointment booking time by 40%, improving user engagement and operational efficiency. • Designed and developed a Custom CRM System for lead management, patient tracking, appointment scheduling, and follow-up automation. • Built an AI-Powered Chatbot that automated over 70% of patient interactions, significantly reducing manual workload. • Developed a Dynamic Content Management System (CMS) enabling non-technical staff to independently manage: • Treatment pages • Website content • Blogs • Testimonials • FAQs • Landing pages • SEO metadata • Banners and promotional content • Implemented secure role-based access control within the CMS for streamlined content governance. • Migrated frontend architecture from React.js (CSR) to Next.js (SSR/SSG), significantly improving SEO rankings and indexing. • Achieved page load times below 2 seconds through code splitting, image optimization, lazy loading, and Core Web Vitals optimization. • Built scalable backend APIs and workflows independently using Node.js and Express.js. • Architected reusable component systems, accelerating future feature development by 30%. • Managed the complete software lifecycle from requirement gathering to deployment and optimization.	

Full Stack Developer, *Freelance*

01/2025 – Present
Hyderabad , India

Education

B.Tech (CSE), Mahatma Gandhi University
CGPA: 6.85

11/2020 – 04/2024
Nalgonda

Intermediate (MPC), Krishnaveni Junior College
937 Marks

04/2018 – 04/2020
Warangal

SSC, Ushodaya High School
CGPA: 8.7

04/2018
Warangal

Key Achievements

- Delivered 6+ live client projects independently
- Generated ₹1.2L/month additional revenue through platform optimization
- Built a complete CRM + CMS + AI Chatbot ecosystem for healthcare operations
- Automated 70% of patient interactions using AI-powered solutions
- Reduced patient booking time by 40%
- Achieved sub-2-second page load performance
- Specialized in Next.js, SEO, Core Web Vitals, and scalable application architecture
- Managed complete product development lifecycle independently from concept to deployment

Technical Skills

Frontend Development

- React.js
- Next.js
- JavaScript (ES6+)
- TypeScript
- HTML5
- CSS3
- Tailwind CSS
- Bootstrap
- Material UI
- Responsive Web Design
- Web Accessibility (WCAG)

Database Technologies

- MongoDB
- Mongoose

Devops & Tools

- Git
- GitHub
- Postman
- Vercel
- Render
- Cloudinary
- Cloudflare

Backend Development

- Node.js
- Express.js
- REST APIs
- Authentication & Authorization
- JWT Authentication
- Socket.io [↗](#)

Specializations

- SEO Optimization
- Technical SEO
- Core Web Vitals
- Performance Optimization
- SSR / SSG Architecture
- UI/UX Optimization
- Scalable Frontend Architecture
- Custom CMS Development
- Content Management Workflows
- Role-Based Access Control
- CRM Systems
- Lead Management Automation
- AI Chatbot Development
- Conversational Interfaces

Certificates

- Full Stack Development with MERN Stack – NASSCOM [↗](#)
- Full Stack Development with MERN [↗](#)

Projects

Hospital Operations Platform, *React.js | Next.js | Node.js | Express.js | MongoDB*

- Built a production-ready healthcare ecosystem for appointment booking and patient engagement.
- Developed a custom CRM for patient and lead management.
- Created a dynamic CMS enabling staff to update website content independently.
- Integrated an AI chatbot for automated support and lead generation.
- Implemented SSR and SSG architecture using Next.js for SEO optimization.
- Applied code splitting, lazy loading, and asset optimization techniques.

School Management Platform, *React.js | MongoDB | Tailwind CSS*

- Developed role-based dashboards for teachers and students.
- Built attendance tracking and marks management systems.
- Created responsive and cross-browser compatible interfaces.
- Implemented secure authentication and authorization.

Real-Time Chat Application, *React.js | Node.js | Express.js | MongoDB | Socket.io*

- Built a live messaging platform supporting real-time communication.
- Implemented JWT-based authentication.
- Enabled instant message delivery using Socket.io [↗](#).
- Integrated Cloudinary for media sharing.
- Deployed on Render for production use.

Internship

Web Development Internship

09/2024 – 10/2024

Hyderabad

- Worked on frontend and backend web development projects.
- Gained hands-on experience with modern web technologies and deployment workflows.
